

CALF PELLET

PRODUCT DESCRIPTION

- * Formulated from dried distillers grains and syrups , with the addition of cereal grains and starches.
- * Developed to encourage rumen development in calves.
- * Pellet size is 4.5mm
- * Free of any genetically modified organisms.

PRODUCT FEATURES & UNIQUE BENEFITS

- * Extremely palatable to calves.
- * Vitamins and minerals for health and development including Biotin, a vitamin to improve hoof health, and HyD a highly effective vitamin B source for significantly increased calcium and energy metabolisation.
- * Bovatec 20cc, an Ionophore to control coccidiosis caused by Eimeria species.

FEEDING RECOMMENDATIONS

- * Introduce from four days of age, increasing amounts gradually (until weaning at consumption rate of 1kg of Calf Pellet daily for three consecutive days).
- * Feed should be offered daily in clean troughs or other suitable feeding systems.
- * Adequate roughage should be available.

IMPORTANT INFORMATION

Do NOT allow dogs, horses or other equines to access feed containing ionophores as ingestion may be fatal.

STORAGE

Calf Pellets should be stored in a clean and dry environment free of rodent and insect infestations.

TYPICAL ANALYSIS (DM BASIS)	
Protein	19.6%
