

## DDG~S Dairy Pellet

### Product Description

- Formulated from dried distillers' grains and syrups (DDG-S), cereal grains and starches.
- Designed to deliver lactating cows a quality source of protein, rumen-fermentable carbohydrates, trace minerals and vitamins.
- Pellet size is 5mm
- Free of any genetically modified organisms.

### Product Features & Unique Benefits

- Extremely palatable and contains the following
- Monensin, an ionophore to improve feed efficiency
- Acid Buf, to better neutralise rumen acid
- Biotin, a water soluble B Complex vitamin shown to improve hoof health and hoof hardness
- Levucell SC, a selected natural live yeast (*SAC-charomyces cerebisiae* CNCM i-1077) to help optimise general functions in the rumen.

### Feeding Recommendations

- Can be fed to lactating cows at a daily rate of 4kg–8kg each
- Feed should be offered fresh daily in frequently cleaned troughs
- Fresh, clean water must always be available
- It is recommended that independent advice is considered when feeding supplements.

PRTEIN FIBRE & FAT FRACTIONS (DM)	
Protein	22%
RUP (%CP)	79%
RUM ME	12MJ/kg
ADF	11%
NDF	27%
NFC	41%
FAT	4.5%

**STORAGE:** DDG-S Wheat Pellets should be stored in a clean and dry environment free of rodent and insect infestations and protected from the weather.

### IMPORTANT INFORMATION

Care must be exercised when feeding with other antimicrobials.

DO NOT allow DOGS, HORSES or other equines to access feed containing ionophores as ingestion may be fatal.

Do not feed with any other Ionophores.
